## Discover More about the 3V0-752 Certification

Are you interested in passing the VMware 3V0-752 exam? First discover, who benefits from the 3V0-752 certification. The 3V0-752 is suitable for a candidate if he wants to learn about End-User Computing. Passing the 3V0-752 exam earns you the VMware Certified Advanced Professional - Desktop Management Design 2022 (VCAP-DTM Design 2022) title.

While preparing for the 3V0-752 exam, many candidates struggle to get the necessary materials. But do not worry; your struggling days are over. The 3V0-752 PDF contains some of the most valuable preparation tips and the details and instant access to useful [3V0-752 study materials just at one click](#).

## VMware 3V0-752 VCAP-DTM Design 2022 Certification Details:

<b>Exam Name</b>	VMware Certified Advanced Professional 7 - Desktop Management Design (VCAP-DTM Design 2022)
<b>Exam Code</b>	3V0-752
<b>Exam Price</b>	\$450 USD
<b>Duration</b>	135 minutes
<b>Number of Questions</b>	60
<b>Passing Score</b>	300 / 500
<b>Schedule Exam</b>	<a href="#">PEARSON VUE</a>
<b>Sample Questions</b>	<a href="#">VMware 3V0-752 Sample Questions</a>
<b>Recommended Practice</b>	<a href="#">VMware Certified Advanced Professional - Desktop Management Design 2022 (VCAP-DTM Design 2022) Practice Test</a>

## 3V0-752 Syllabus:

Section	Objectives
<b>Create a Horizon Conceptual Design</b>	<ul style="list-style-type: none"> <li>- Gather and analyze requirements</li> <li>- Gather and analyze application requirements</li> <li>- Differentiate requirements, risks, constraints and assumptions</li> <li>- Evaluate existing business practices against established use cases</li> </ul>
<b>Create a Horizon Logical Design</b>	<ul style="list-style-type: none"> <li>- Map Business Requirements to the Logical Design</li> <li>- Map Horizon Solution Dependencies</li> <li>- Build Availability Requirements into the Logical Design</li> <li>- Build Manageability Requirements into the Logical Design</li> <li>- Build Performance Requirements into the Logical Design</li> <li>- Build Recoverability Requirements into the Logical Design</li> <li>- Build Security Requirements into the Logical Design</li> </ul>
<b>Create a Physical Design for vSphere and Horizon Components</b>	<ul style="list-style-type: none"> <li>- Create a Horizon Pod and Block Architecture Design</li> <li>- Extend Horizon Architecture Design to Support Additional Horizon Suite Components</li> <li>- Design vSphere Infrastructure to Support a Horizon Implementation</li> <li>- Add Required Services to Support a Given vSphere Design</li> </ul>
<b>Create a Physical Design for Horizon Storage</b>	<ul style="list-style-type: none"> <li>- Create and Optimize a Physical Design for Horizon Infrastructure Storage</li> <li>- Create and Optimize a Physical Design for View Pool Storage</li> <li>- Create and Optimize a Physical Storage Design for Applications</li> <li>- Create and Optimize a Tiered Physical Horizon Storage Design</li> <li>- Integrate Virtual SAN into a Horizon Design</li> </ul>
<b>Create a Physical Design for Horizon Networking</b>	<ul style="list-style-type: none"> <li>- Plan and Design Network Requirements for Horizon solutions (including Mirage and Workspace One)</li> <li>- Design Network and Security Components Based on Capacity and Availability Requirements</li> <li>- Evaluate GPO and Display Protocol Tuning Options Based on Bandwidth and Connection Limits</li> </ul>
<b>Create a Physical Design for Horizon Desktops and Pools</b>	<ul style="list-style-type: none"> <li>- Design Virtual and Physical Image Masters</li> <li>- Optimize Desktop Images, OS Services and Applications for a Horizon Design</li> <li>- Incorporate Desktop Pools into a Horizon Design</li> <li>- Incorporate RDS Pools into a Horizon Design</li> </ul>
<b>Incorporate Application Services into a Horizon Physical Design</b>	<ul style="list-style-type: none"> <li>- Design Application Integration and/or Delivery System(s) using Horizon Application Tools</li> <li>- Design Active Directory to Facilitate Application Assignment</li> <li>- Design and Size RDS Application Pools and Farms</li> <li>- Create Application Architecture Design</li> <li>- Design Application Integration and/or Delivery System(s) using Horizon Workspace One</li> </ul>
<b>Incorporate Endpoints into a Horizon Design</b>	<ul style="list-style-type: none"> <li>- Incorporate Session Connectivity Requirements in a Horizon End Point Design</li> <li>- Incorporate Management Requirements in a Horizon End Point Client Design</li> <li>- Incorporate Security Requirements in a Horizon End Point Design</li> </ul>

# Broaden Your Knowledge with VMware 3V0-752

## Sample Questions:

### Question: 1

A company has a mix of older zero clients, Windows, and Mac devices as endpoints which connect to Horizon View 7.1 desktops.

An online meeting and conferencing application has been chosen as the new corporate conferencing solution. The company is concerned that the current Horizon View environment will not be able to support the added audio and video traffic.

What two things must be done to the environment to ensure proper functionality of the application?

(Choose two.)

- a) Configure USB redirection group policy settings to disable the display of webcams and audio devices.
- b) Enable RTAV through group policy
- c) Configure USB redirection group policy settings to prioritize webcam and audio devices.
- d) Migrate PCoIP to BLAST
- e) Deploy Identity Manager to manage access to the online meeting and conference application.

**Answer: b, c**

### Question: 2

An architect has been assigned to evaluate a VMware Horizon View implementation.

After discussions with the application owners, infrastructure team, and users, the architect confirms that there are legacy applications. The architect also discovers that there are login scripts used to map network printers and network drives.

Which two VMware Horizon View components can the architect recommend to address the discoveries?

(Choose two.)

- a) VMware ThinApp
- b) VMware Mirage
- c) VMware User Environment Manager
- d) VMware Identity Manager
- e) VMware Fusion

**Answer: a, c**

**Question: 3**

A company wants to deploy Horizon View 7.1 to provide virtual desktops to remote users without installing Horizon Client software.

For security and management reasons, they have asked for the following:

- No USB redirection
- No local printing
- Use of TCP only

Which two components and features meet the requirements?

(Choose two.)

- a) Smart Policies
- b) SSL Certificates
- c) HTML access enabled pools
- d) SSL VPN
- e) Direct Connection

**Answer: b, c**

**Question: 4**

The CIO of a hospital which uses VMware Horizon has ordered a review of the main medical application that is accessed by all medical users.

As a result of the review, the CIO has asked the IT administrator to make the application available to his medical staff regardless of the device from which the user accesses the application.

Because this is the main medical software, there are a number of restrictions:

- Application must remain secure and under IT control at all times.
- Application must be available in all five of the company's main hospitals.
- Storage is limited at three of the five hospitals.
- Users must have a single point of entry to access the application.
- Application will be accessed by over 5,000 users.

Which two could be used to deploy the application?

(Choose two.)

- a) VMware App Volumes
- b) VMware Mirage
- c) Horizon FLEX
- d) Horizon Published Applications
- e) VMware Fusion

**Answer: a, d**

**Question: 5**

A company is struggling with shadow IT. Different departments are purchasing a wide range of different SaaS-based software.

To bring order and to ensure compliance, the CIO has decided to implement a Digital Workspace with the following goals, in order of importance:

- Present approved SaaS software to users and offer Single-Sign On (SSO) using a portal.
- Bring mobile devices under management, but still offer user choice. Enrolled users should get a better user experience. If not enrolled, access should still be provided.
- Allow access to internal web applications from the Internet without the need for a VPN solution. The internal Web applications support Kerberos for SSO.
- Critical to success is a great user experience.

Which solution satisfies all of these goals?

- a) - Implement Workspace One cloud hosted. Deploy AirWatch Cloud Connector for user synchronization.
  - Integrate both SaaS and internal web applications into the VMware Identity Manager Portal using the native support for SAML and Kerberos in the portal.
  - Promote the native Workspace One mobile app to drive adaptive management of mobile devices.
- b) - Implement Airwatch and VMware Identity Manager on-premises.
  - Present SaaS based applications using VMware Identity Manager and configure AirWatch to do per-app VPN and Kerberos Identity Bridge to internal web applications.
  - Instruct users to enroll into AirWatch for full functionality
- c) - Implement Workspace One cloud hosted. Deploy AirWatch Cloud Connector for user synchronization.
  - Deploy Horizon and publish a web browser to cover the seamless access to Kerberos enabled internal Web application.
  - Promote the native Workspace One mobile app to drive adaptive management of mobile devices.
- d) - Implement Workspace One cloud hosted. Deploy AirWatch Cloud Connector for user synchronization.
  - Deploy Unified Access Gateway (UAG) on-premises.
  - Configure UAG to perform Kerberos Identity Bridge and Application Proxy for internal web applications.
  - Integrate SaaS applications and UAG into Workspace One Portal. Promote the native Workspace One mobile app to drive adaptive management of mobile devices

**Answer: d**

**Question: 6**

Which two areas can benefit from having multiple vCenter servers for desktop virtual machine management? (Choose two.)

- a) Power and provisioning operations.
- b) Flexibility for managing maintenance windows.
- c) Performance for user logon and logoff operations.
- d) Restart and reset operations.

**Answer: a, b**

**Question: 7**

Which resource can an architect use to calculate vSAN sizing and cost estimates when considering a VMware vSAN integration into a Horizon 7 design?

- a) VMware vRealize Business
- b) VMware vRealize Operations Manager for Horizon
- c) VMware vSAN TCO and sizing calculator
- d) VMware vSAN Design and Sizing Guide

**Answer: c**

**Question: 8**

What is the maximum number of hosts and virtual machines supported by VMware vCenter Server v6.5 Appliance according to VMware?

- a) 2,000 Hosts and 25,000 virtual machines
- b) 200 Hosts and 2500 virtual machines
- c) 100 Hosts and 1000 virtual machines
- d) 1,000 Hosts or 10,000 virtual machines

**Answer: a**

**Question: 9**

An architect is designing a View environment for a customer who can accept no single points of failure. Which three VMware-supported options provide redundancy for the VMware vCenter Server 6.5 which manages desktop VMs? (Choose three.)

- a) VMware vCenter Server Heartbeat
- b) VMware vSphere HA
- c) Microsoft Cluster Services
- d) vCenter HA
- e) Enhanced Linked Mode

**Answer: b, c, d**

**Question: 10**

A small government organization wants to deploy VMware App Volumes to support 80 end users on both a legacy Citrix XenApp environment and a newly deployed VMware Horizon system using application pools. Due to a constraint, the customer cannot implement vSphere high availability.

Which is the minimum number of App Volumes Manager servers that can be deployed for redundancy?

- a) 2
- b) 4
- c) 6
- d) 8

**Answer: b**

## Avail the Study Guide to Pass VMware 3V0-752 VCAP-DTM Design 2022 Exam:

- Find out about the 3V0-752 syllabus topics. Visiting the official site offers an idea about the exam structure and other important study resources. Going through the syllabus topics help to plan the exam in an organized manner.
- Once you are done exploring the [3V0-752 syllabus](#), it is time to plan for studying and covering the syllabus topics from the core. Chalk out the best plan for yourself to cover each part of the syllabus in a hassle-free manner.
- A study schedule helps you to stay calm throughout your exam preparation. It should contain your materials and thoughts like study hours, number of topics for daily studying mentioned on it. The best bet to clear the exam is to follow your schedule rigorously.
- The candidate should not miss out on the scope to learn from the 3V0-752 training. Joining the VMware provided training for 3V0-752 exam helps a candidate to strengthen his practical knowledge base from the certification.
- Learning about the probable questions and gaining knowledge regarding the exam structure helps a lot. Go through the [3V0-752 sample questions](#) and boost your knowledge
- Make yourself a pro through online practicing the syllabus topics. 3V0-752 practice tests would guide you on your strengths and weaknesses

regarding the syllabus topics. Through rigorous practicing, you can improve the weaker sections too. Learn well about time management during exam and become confident gradually with practice tests.

## Career Benefits:

- Passing the 3V0-752 exam, helps a candidate to prosper highly in his career. Having the certification on the resume adds to the candidate's benefit and helps to get the best opportunities.

### Here Is the Trusted Practice Test for the 3V0-752 Certification

VMExam.Com is here with all the necessary details regarding the 3V0-752 exam. We provide authentic practice tests for the 3V0-752 exam. What do you gain from these practice tests? You get to experience the real exam-like questions made by industry experts and get a scope to improve your performance in the actual exam. Rely on VMExam.Com for rigorous, unlimited two-month attempts on the [3V0-752 practice tests](#), and gradually build your confidence. Rigorous practice made many aspirants successful and made their journey easy towards grabbing the VMware Certified Advanced Professional - Desktop Management Design 2022 (VCAP-DTM Design 2022).
